MEMORANDUM FOR THE SECRETARY OF DEFENSE

Subject: Accelerated Expansion of RVNAF (U)

1. (U) Reference is made to the memorandum by the Deputy Secretary of Defense, dated 4 April 1968, subject: "Increase in the FY 68 RVNAF Force Level (U)."
2. (U) The President has expressed intense interest in and has placed great emphasis on the expansion of the Republic of Vietnam Armed Forces (RVNAF) to attain a posture of self-sufficiency in the near term.
3. (U) COMUSMACV has estimated that SVN can reach and maintain an RVNAF force level of approximately 801,215 by end FY 1970. As a result of the current momentum being imparted to the mobilization of SVN manpower by President Thieu, it is possible that this force level may be reached earlier. Proposed force levels are contained in Appendices A and B hereto. In view of the possibility of negotiations with Hanoi, there may be a freeze applied to RVNAF force levels and armaments. Anticipating this situation, we should strive to bring the RVNAF to a self-sufficient posture prior to any freeze, and thus create the largest sustainable RVNAF in-being prior to a negotiated settlement.
4. (U) The Joint Chiefs of Staff consider the further RVNAF increase of 115,475 spaces, which includes 31,475 FY 1969 pipeline spaces previously approved, is required to improve the capability of the GVN forces. This action should enable the RVNAF to become self-sufficient against a residual internal insurgency threat.
5. (U) While the equipment requirements and dollar costs cannot be totaled precisely until final details are submitted by COMUSMACV, raw estimates of costs for the total increases are \$530 million and for full modernization of RVNAF approach an additional \$590 million.

6. [REDACTED] Since equipment may not be available to keep pace with this expansion, it is planned temporarily to place personnel authorized for armor, artillery, transport, construction, engineer, and other special units into infantry-type units of the existing force structure. Basic infantry equipment can be provided from existing stocks, particularly the M2 carbine until the M16 rifle becomes available. This action has an advantage of providing unit fillers and overstrength with minimum impact on requirements for leaders and long lead-time training. As necessary leaders and the specialized equipment become available, personnel can be reassigned to newly activated units to round out the RVNAF force structure.

7. (U) The reference requested that when the proposals of the Joint Chiefs of Staff regarding FY 1969 RVNAF force levels were submitted, certain additional information concerning RVNAF force structure, combat effectiveness, equipment shortages, and studies which support the RVNAF force requirements were desired. Due to the urgency of the proposed expansion of RVNAF, this memorandum is submitted without the information you requested. This information will be developed, however, and submitted to you separately.

8. [REDACTED] The Joint Chiefs of Staff recommend that:

a. Approval be provided for the expansion of RVNAF to a total force level of 801,215, to be reached as soon as possible.

b. Approval be provided for funds necessary to support the recommended expansion, subject to final determination of the force structure, associated equipment requirements, and detailed costs.

c. Approval be provided to furnish the M2 carbine as an interim weapon pending availability of M16 rifles.

d. Approval be provided to furnish RVNAF (including RF/PF) M16 rifles.

For the Joint Chiefs of Staff:

HAROLD K. JOHNSON
Acting Chairman
Joint Chiefs of Staff
